ODF subracks, Easy Access
1U, 2U, 3U, 48-144 fibres

High-density subrack for Datwyler ODF

DESCRIPTION

The Datwyler ODF subracks are particularly suitable for high-density applications in telco/carrier networks.
They provide advanced splice and patch systems and cable management.
Smooth and convenient telescopic sliding system.
Cable glands to secure the incoming fibres.
Strain relief for all cables.
Bend radius control for fibres.

APPLICATION

Backbone and distribution networks, particularly for PoPs in the carrier section.
Also suitable for data centres and LAN projects (19″).

MECHANICAL PROPERTIES

Capacity: 24 ports per tray - 1U up to 48, 2U up to 96, 3U up to 144 fibres (72 duplex adapters)
Colour: Light grey, RAL 7035 (powder-coated)
